ries and luxuries which the salaried

man and the money ledger must

pay for, they make the least pos-

sible account Now this is not a matter to find fault with; it is inevitable, and at the same time it is one of the adentirely unconscious that the wood | Eastern Division Fair, held at Knoxville in October, 1870, and the tariff, our worth a dime, and that the apples, same month. which add zest to the social enterforts are not less valuable because nessee and Southwest Virginia. they seem to their possessor as free as the air of the sunlight. Their influence will be quite as wholesome as if each article were labeled with its precious market value. But in order to obtain an accurate idea of even the money profits of farming, these items must all be footed up-a thing which not one farmer in a hundred has ever done or ever will do.

Facts in Agriculture.

All permanent improvements of land look to lime for their basis. Periodical application of ashes tends to keep up the integrity of

All grain crops should be harvested before perfectly ripe.

the soil.

To manure or lime wet land, is to throw manure, lime and labor

Clover as well as grasses intend-

ed for hay, should be mown when in bloom. Shallow plowing operates to im-

poverish the soil, where it decreases its production. Punctuality in engagement is as

necessary to the agriculturist as it is to a merchant. Deep plowing greatly improves

the productive powers of every variety of soil that is not wet.

Subseiling sound land that is not wet, is eminently conducive to increased production.

Always provide an equivalent for the substance carried off the land to the products grown thereon. The chopping or grinding of

grain to feed to the stock operates as a saving of at least twenty-five per

SHEEP RAISING .-- Large Profit from a Small Flock.

The Milford Mutual Friend publishes the following item of interest to agriculturists: "Mr. Samuel S. Harrington went down in Sussex last year and bought eleven head of sheep, for which he paid \$20.90. He sold wool-this year's clip-at the factory-"Haven Woolen Mill" -for \$12.90. He has raised lambs worth \$36.00. The account would stand thus :-

Cost of sheep,.....\$20.90 Lambs raised this year,......36.00 Value of sheep,......20.90

Total,.....\$69.80 an increase in value of \$48.90, or between two and three hundred per cent. What stock can our farmers engage in raising that will vield a more handsome profit than

A Hint to Farmer Boys.

fields, the orchards, and the crops with which be has his annual dealings just as his more careful brother merchant does, he would find a spirit of business working into all would inevitably follow. The loose notion seems to be that here are the fields, and these the buildings, and a living must somehow be got out of them. But that will not do in these days. Every agriculturist · is bound to know what his farm yields him for his own consumption, and how much for sale; and then by eiphering the difference less the cost of cultivation.

What is the difference be- Canton, Ohio. tween an egg-shell and a physician? One is MT, and the other M. D.
